### Local Topics.

Rev. Frank Hustler spent  
Wednesday in town.

Mrs. A. Goldreich was in town  
from the south on Friday.

T. C. Buchanan, general su-  
perintendent of Methodist Mis-  
sions, Calgary, paid a flying  
visit here Wednesday.

C. C. McMullen, representing  
the Northwest Jobbing and  
Commission Co., Lethbridge  
was in town Wednesday.

Mr. J. A. Forrest of the Mas-  
sey Harris Co. was a visitor to  
town this week. He was ac-  
companied by his wife and son.

Mr. J. Jackson, general man-  
ager of the Citizens Lumber  
Co., and Mr. H. G. Newendorp,  
auditor of the same company  
spent Tuesday and Wednesday  
in town.

Members of the L.O.O.F. re-  
siding in Bow Island and dis-  
trict desirous of co-operating  
with a view to forming a local  
lodge are requested to send  
their names in at once to W. P.  
Cotton, editor of the Review.  
They will then be notified of  
the date and the place of the  
preliminary meeting.

A meeting of the Ladies' Aux-  
iliary of the Church of England  
was held at the residence of  
Mrs. C. R. Hands, Sunnyvale,  
last Wednesday, at which there  
were about 25 members present.  
After the transaction of the  
usual routine business a dinner  
lunch was served by the hos-  
tess Mrs. C. R. Hands. The  
next meeting will be held at  
the home of Mrs. John Rush-  
worth.

Work on grading the Cana-  
dian Northern Railway in the  
city limits at Calgary started  
Wednesday. J. L. Powers of  
Okotoks, who has a sub-con-  
tract from John Breckenridge,  
is arranging for a dozen teams  
and expects to have another  
dozen within a few days. The  
first work will be done across  
the elbow from St. Mary's Hill.  
This will be the first grading to  
be done in Calgary other than  
by the C.P.R.

Ordinary attention to the feet re-  
quires that they be given a bath daily.  
The clothing of the feet more than  
that of the rest of the body, prevents  
the sun and air from reaching these  
members and doing their work of  
purification. And often, even when  
in "undress," while other parts of the  
body are free from the unhygienic  
street clothing, the feet are still en-  
cased. In lieu of these disadvantages  
the one course left us is to keep the  
feet scrupulously clean. The daily  
foot bath can be taken to best advan-  
tage in the evening, as the benefit  
derived therefrom will then be ex-  
tended through the night. The bath,  
firstly, of course for cleanliness, and  
secondly, after the fatigue which  
must naturally result from the day's  
work, the bath will be found soothing  
and restful and will often insure a  
good night's sleep. Ordinarily the  
water used should be comfortably  
warm. When this the temperature  
of the water, however, it will be ad-  
visable for persons in fairly vigorous  
condition to plunge their feet into  
cold water in order to close the pores.  
They should then be thoroughly dried.  
Those whose occupation requires  
walking or standing for considerable  
periods of time often suffer from hot,  
aching and sometimes swollen feet.  
This condition can be considerably re-  
lieved by adding a little bicarbonate  
of soda or borax to the foot bath. Hot  
salt baths also afford great relief to  
tired swollen feet. About a glassful  
of brine to a quart of water is about  
the right proportion. It is advisable  
to prepare a quantity of brine be-  
forehand and use when necessary. A  
good brine is made by dissolving  
quart of sea salt in four gallons of  
water. — From September Physical  
Culture.

### BIG EXHIBITION AT LETHBRIDGE.

The fair and races at Leth-  
bridge come off next week and  
everything now points to their  
being better and bigger than  
ever. Entries in the different  
classes are coming in in large  
numbers and the big list of  
racing events is being well filled.

The grounds have been gotten  
in good shape and are beginning  
to take on an aspect that speaks  
well for the big crowds that  
will be on them next week.  
Good platform attractions have  
been arranged for, and the bal-  
loon ascension and parachute  
jump will positively take place  
on the afternoon of the 10th  
and 11th, Wednesday and Thurs-  
day.

Our old friend, George Houk,  
has the Indians well in line and  
promises a bigger, better, and  
grandier parade than ever. The  
Indians will all take part in the  
big pow wow which takes place  
every evening on the platform  
in front of the grand stand. The  
government is frowning on  
these Indians exhibitions and  
this will probably be the last  
time the public will have an op-  
portunity of seeing them.

Everything possible is being  
done for the comfort of the  
visitors. A good dining room  
is in operation and water carts  
will be constantly at work lay-  
ing the dust. The City itself is  
even now beginning to fill up  
with the advance guard and  
there is every indication that  
the attendance this year will be  
a record breaker. Special rates  
have been given on railroads  
and we believe many of our  
local people are preparing to  
attend.

### BOARD OF TRADE.

The regular meeting of the  
Bow Island Board of Trade was  
held on Monday evening last,  
there being a good attendance.

After the minutes had been  
read the question of the growth  
of weeds in the district was dis-  
cussed, and finally, upon a mo-  
tion by Mr. A. Swenmanson,  
seconded by Mr. S. McCrea, the  
Secretary was instructed to  
write to the local member, Mr.  
A. McLean, asking him to write  
the weed inspector with refer-  
ence to the large number of  
weeds on the farms surround-  
ing town.

The important subject of the  
town's water supply was then  
brought up, and upon the mo-  
tion of Messrs. A. Swenmanson  
and W. S. Donnelly, it was re-  
solved that the following reso-  
lution be submitted to the Vil-  
lage Council, viz.: "That a well  
be sunk by the village for the  
benefit of the ratepayers."

A motion was then put by  
Messrs. H. E. Beattie and S. Mc-  
Crea that the Secretary be  
authorized to have fifty copies  
of the by-laws printed in book  
form.

The meeting then adjourned.

By a remarkable run on a special  
train from Fargo to Casselton, N. D.,  
a distance of 25 miles, in twenty-two  
minutes, the Fargo fire department  
last Friday afternoon saved the city  
of Casselton from destruction by fire.  
With a strong northwest wind blow-  
ing, a fire which started in an elevated  
lot got away from the control of the Cas-  
selton department, destroyed two  
business blocks, and threatened the  
rest of the town. The Northern Pacific  
furnished a special train, and the  
Fargo steamer and a couple of hose  
wagons answered an appeal for help.  
They had the fire under control half  
an hour after reaching Casselton. The  
losses are Casselton Hardware store  
\$25,000; A. G. W. hall and Wright's  
cigar store \$2,000; Hansen's millinery  
store \$200.00.

# The Vanishing Smuggler

By STEPHEN CHAMBERS  
(Copyright, 1909, by Edward J. Clode.)

## CHAPTER I—(Continued)

The Genesis of "Smugglerie"

"What's him?" said Heather

with the lad. He knew enough to bring

your neck, Master Giles Scrymgeour."

The miser's face screwed up into evil

spikes and his eyes danced furiously.

He suddenly turned to the boy, "Have

you any more of that?"

"If he goes to Morg, there's no one

as 'ud 'sist 'im," said the wretched—

drop it at all!"

"Maybe," said the leader quietly,

you would have an objection, Giles, if

we tied a stone to the boy's feet and

dropped him over the Half Bull's

"It might be for the best," muttered

thereafter, turning up the whites of his

eyes. "It's a very deep well."

"Heather Bloom threw his hands in the

air with an expression of disgust.

"Groggishness," he said to a smug

gle with a fat pug nose, "take this lad

had aboard the schooner and, as you

value your soul, keep him alive. Lad,"

he said, turning to the boy, "have

you any more of that?"

"There was none to say to it."

"Flee, sir,"

"Very well," said Heather Bloom.

With a contemptuous glance at Giles

Scrymgeour, he added,

"I've said a pile for the lad that

there was none to say to it."

"Flee, sir,"

"Very well," said Heather Bloom.

With a contemptuous glance at Giles

Scrymgeour, he added,

"I've said a pile for the lad that

there was none to say to it."

"Flee, sir,"

"Very well," said Heather Bloom.

With a contemptuous glance at Giles

Scrymgeour, he added,

"I've said a pile for the lad that

there was none to say to it."

"Flee, sir,"

"Very well," said Heather Bloom.

"Flee, sir,"

"Very well," said Heather Bloom.

It was in pursuance of his right

to, thoughtfully examining the

credentials of every vessel that moved

in or out of Morg, that Captain

Larkin accompanied the constable

and Mr. Horneycraft about the

Thistle Dome. Not that he or his

associates expected to discover anything

suspicious, but to contraband about the

brother, which was a Morg-orator,

Morg-orator craft, plying with the

broader, and general merchandise be-

tween the Scotch village and English

ports; but the cleverness of Heather

Bloom demanded that every precaution

be taken.

In the course there might well have

been excuse for special attention to the

Thistle Dome, for the schooner had just

returned after one of her very early

trips to Bordeaux, and vessels out of

that French port were ever strictly

close inspection. As Mr. Horneycraft

was in his midnight way of

thinking and speaking,

"There are laid aboard and faces

about, and the French fire

eyes."

"It was impossible to know Mr. Hor-

neycraft for five minutes without dis-

covering the principal peculiarity of

his character. That strain of cynicism

which is common to man and ani-

mal, was developed in him to an abnor-

mal degree. It may have been born in

him, but it was certainly not

his profession, but it is certain that he

was not content to let his cynicism

be a mere habit, but he used it as a

tool to do, at least by inclination. As

aid Jack Cockburn would say of him,

"Mr. Horneycraft, sir, would be for

contraband under the chair you offered

me."

Of this old saw, which he could not

forget, he made a habit of saying

about him. He had fought under Nel-

son, and he had seen the world

of King George, but he had

been a lot of principles from his

character. That strain of cynicism

which is common to man and ani-

mal, was developed in him to an abnor-

mal degree. It may have been born in

him, but it was certainly not

his profession, but it is certain that he

was not content to let his cynicism

be a mere habit, but he used it as a

## The Bow Island Review

A Town and Country Journal Devoted to the interests of Bow Island and Surrounding Districts.

Published at Bow Island every Saturday Morning.  
Subscription Price \$1.50 Per Year in Advance.

W. P. Cotton

Publisher and Prop.

### ADVERTISING RATES

Transient Advertising such as legal notices, tenders, readers, etc., 12c per line 8c per line each subsequent insertion. Lost, Found, Wanted, etc., 2c for first insertion, 20c each additional one.  
Commercial Advertising rates on application. Professional Cards occupying one inch \$2.00 per quarter. Commercial Advertising payable monthly at other in advance. Four insertions constitute a month except per year contract.

To ensure insertion of advertisements and new ads, notification of same must be made to this office before 12 o'clock noon Wednesday of each week. Local items of interest as news, accepted up to each Friday. This rule is not a hard and fast one, but we cannot guarantee insertion after that time.  
Marriages, birth and death notices inserted free.

### NOTICE TO CORRESPONDENTS

We invite correspondents on all matters of public interest, and especially country news, but reserve to ourselves the right to omit any part or all the copy submitted. The name and the address of the correspondent must accompany all letters for insertion, though not necessarily for publication.

Country correspondents are requested to have their copy reach the office by Tuesday noon of each week. Country letters arriving the latter part of the week are frequently crowded out, and by the next week some of the news has lost much of its value on account of its age.

### JOB WORK

THE REVIEW OFFICE is well supplied with all kinds of type, and is prepared to execute at the shortest notice any job work from the daintiest of cards to full sheet posters.

The first meeting of the Village Council last week marks a new epoch in the building up of Bow Island, and to the members that our first council is composed of we offer our congratulations, not especially upon the fact of their being councillors, but upon the earnest and thorough manner in which they have entered upon their duties. There is no security, and with out a doubt they will in the natural course of things have to undergo the usual difficulties that seem inseparable from their position, but for the businesslike manner with which they have already dealt with their preliminary work we have no doubt but that they will make short work of any obstacles that arise and that is calculated to impede the progressive policy that Bow Island requires.

With the spirit that now exists between the Village Council and our Board of Trade we can look with confidence to the future with every hope of a successful and brilliant outcome.

The members comprising the Bow Island Board of Trade seem to be indefatigable in their efforts to further the interests of the residents in both town and country.

No town can make a real live progress without the co-operation of its business men, and undoubtedly it is due to this want of cohesion on the part of those who should set a better example that there are quite a few of our western towns lagging behind.

Bow Island, however, is not included in this latter category. Its business men evidently being so full of confidence with regard to the future and so full of vim when carrying out reforms that the future of our town looms up bright and cheerful.

It is this spirit of comradeship and co-operation that is so good to witness, and it is this that is going to lift us all out of the rut of discord and place the feelings of the inhabitants upon a plane where all can work unitedly, earnestly and com-

monly for a better town, for better business, but above all for a healthy, sane and progressive policy.

Those who travelled by the No. 2 out of Medicine Hat last Saturday night had a trip replete with stirring events. The first event proved a long one, this being a long weary wait of twelve hours at Walsh on account of a bad freight wreck near Cummings, and where a sorry mix-up of five freight cars sadly disrupted the usually urbane features of the C.P.R. officials. At ten o'clock, however, Sunday morning, the officials graciously allowed the train to proceed, and everything went as merrily as the patience of the passengers, who had been keeping an all-night vigil, still further, and in this case it proved that it really was one. The train was one of two being taken to Brandon, and soon after the train passed the wreck he leaped right through the glass window and alighting unhurt he started off up the track at a clip that would have put Longboat away in its shade. Three mounted police and half the passengers, however, made good time, and in due course a young sprit of Maple Creek, John Peterson, arrived upon the scene to find the visitor for Brandon busily occupied in tapping his head with a stone. Fortunately, his injuries were not serious, and prompt medical attention put him quickly at ease.

Dr. J. C. Husk, D.S., of Lethbridge, was in town Wednesday inspecting some horses which were shipped to Regina.

Mr. Jack Casley left Thursday morning for Brooks, S.D., where he had been called by the serious illness of his father.

Wm. Thompson government U.S. of Medicine Hat, was in town Wednesday and Thursday looking over a case supposed to be glanders. As far as can be learned however, the animal seemed to be diseased was bitten by a rattlesnake.

Natural gas was struck at Tofield, Alta., on Saturday afternoon by Keller Bros., who are drilling a well in the rear of the G.T.P. cafe. They were down a depth of 200 feet when a loud explosion was heard and a shower of muddy water shot up out of the well. Keller Bros. disconnected the machinery from the top of the pipes and shut off the gas by screwing on a valve connection. The affair created a sensation.

ONE MORE CHANCE TO BUY CHEAP LOTS

In the Original Townsite of Bow Island.

Bow Island is growing and will continue to grow, for it is in the centre of a rich agricultural district rapidly developing, and only three miles from the famous Old Glory Gas well, where vast power is awaiting the use of manufacturers. Three coal mines are being opened up within three miles of Bow Island.

Prices of Lots: \$35.0, 50.0, 75.0, 100.0, 125.0

### District News.

#### BOW ISLAND SOUTH.

T. Thompson is south making hay. W. Colley is back after a visit to Seven Persons.

Since the last shower, several plows have been busy in the neighborhood. Harvest operations have commenced on the farms of G. W. Johnston and R. Fisher.

Messrs. A. and E. Gage, Jenkins and C. Ambler have returned after completing their contract for ploughing fireguards for the A. I. & R. Company.

I. N. Ambler and T. Thompson spent a couple of days looking over the country north. Mr. Ambler let drop the remark that he saw no fairer spot than the homestead of his choice.

Methodist Church service on July 11th at Mr. Gibson's 28, 3:30, Sunday School 2:30, and Service 3:30, and at Mr. S. Clifford 7:30 p.m. Everybody made welcome. F. Hustler, Minister.

The latest improvement on Mr. Velders' farm is a well with a plentiful supply of good water in it. After hauling water for two years Mr. Velders will no doubt with great pleasure resign in favor of the new windmill.

#### PLEASANT VALLEY

F. Taylor and Miss Marjorie visited Bow Island the first of the week.

The Methodist Church services will be held on August 7th at Mr. Fred Taylor's residence.

O. Riley was unfortunate enough to have a valuable horse cut by a wire one-day last week.

Ralph Fisher is putting down a well on his place. A. J. Granda with his machine is doing the work.

G. W. Johnston with his son is harvesting on his farm seven miles south of town. He expresses himself as being surprised at the excellent results obtained.

#### WINNIFRED.

Harvey and John McFarland are visiting friends in the country, after which they will leave for Nanton, Alberta.

The C.P.R. has finished putting in sidetracks here, and it is expected an agent will be stationed here very shortly.

H. Fisher is selling out his barnyard shop and pool room, and he and his wife will then go home to the state of Maine.

J. K. Anar is doing a good business in machinery, having sold seven binders, eight mowers, five hay rakes, besides a number of plows and land rakes.

A dance will be held in the school room north on Friday night. The last dance held here was a decided success, and a large attendance there fore expected at the present one.

The office of the long distance telephone is to be in Winchcombe and Tyndall's store. As there is no other way at present of communicating along the line, it is expected that the Winnifred end will be kept pretty busy.

San Sebastian, Spain, Aug. 1.—King Alfonso and Queen Victoria left this morning for England. It is feared civil war would result in an attack upon the Queen, who is hated by the clericals. Premier Canalejas, left in charge by Alfonso, was ordered to arrest all priests who have attacked the government and the King, as a result of the breach with the Vatican.

Denials that the North Dakota crops are as bad as reported are in turn denied by Judge John Knud of Jamestown, N. D., who arrived at Duluth last Friday. "There is absolutely no crop this year," he said. "Everything is burned up. The farmers will be glad if they get enough wheat for seed." Judge Knud is an ex-justice of the North Dakota Supreme Court.

Madrid, Aug. 1.—Denies the effects of the government to suppress all news of an alarming nature, it is evident here that Spain is on the eve of what may be one of the most important upheavals in its history. Before the strained situation caused by the break with the Vatican, and the strike of working men at Barcelona and Bilbao, there is a feeling that within the next few days Spain is likely to be one scene of widespread riots, in which much blood is likely to be shed.

The activity of the Carlists has caused the strengthening of the military forces on the western border of the kingdom. The movements of Don Jaime are being watched by special surveillance. Gen. Woyter has been put in command of the troops in Catalonia and has been instructed to put down the slightest uprising with a merciless hand.

### LOCAL TOPICS.

Mr. T. J. Henderson of sec. 28, 10-11, went east this week on a business trip.

J. McKeen, painter, left on Tuesday for Suffield, where he has secured employment for a considerable period. Our congratulations are extended to Mrs. and Mrs. J. G. Waters upon the arrival of a fine baby boy at their residence on Tuesday morning.

Owing to the inability of the Rev. Father Meyer to be here on August 14th, as previously announced, mass will be said instead on August 21st in Linguit Hall.

Mrs. F. Cote was called yesterday to Grassy Lake by the death of her little niece, the daughter of Mr. and Mrs. Louis Forten, whose death took place in the early morning.

Miss D. Hines, graduate of St. Mary's Hospital, Rochester, Minn., is visiting her father, A. G. Hines. She is extremely pleased with the appearance of our busy little town.

Mr. A. Blawie, manager of the Citizens Lumber Co., is suffering from a fractured bone in the left hand. The injury was sustained during a friendly wrestle with Roy Beattie. We are glad to say the hand is mending nicely.

Mr. and Mrs. Geo. Murray and daughter Miss Annie, of Seven Persons, spent Saturday in Bow Island. This is the second visit they have paid within two years, and naturally they were gratified at the wonderful progress made here.

Our deepest sympathy is extended to Mr. and J. Rushworth upon the loss of their baby boy, who died on Wednesday, August 3rd, aged 1 year and 8 months. The funeral took place from the residence of Mr. Rushworth yesterday (Friday) and the body was interred in the Bow Island Cemetery.

Mrs. J. W. Prillman, north of Bow Island, presented us with a sweet little bouquet of sweet peas, which were grown upon her farm. We have heard of this farm before and now understand the reason. We also now understand more fully why Bow Island is considered to be very fortunate in its class of residents.

#### FOSTER'S FORECAST

Washington, D.C., July 30.—Last bulletin gave forecasts of disturbance to coast continent August 3 to 7, warm waves 3 to 4, cool waves 6 to 8. Two important features will accompany this disturbance. It will immediately follow a great high temperature wave and a serious drought covering the last ten days of July. That drought will not be general but will seriously damage large sections of the growing crop of corn. The high temperatures will close and the drought disappear for a time with this disturbance.

Second disturbance of August will reach Pacific coast about 6, cross Pacific by close of 7, great central valley 10, warm sections 11, warm waves will cross Pacific slope about 6, great central valley 8, eastern sections 10. Cool waves will cross Pacific about 9, great central valley 11, eastern sections 13.

This will be one of the most important disturbances of the season. Low temperatures will prevail and the drought will be broken in large sections of the corn belt. Up to about August 6, the corn crop in large sections will be seriously threatened and the rains that will come from August 10 to 19 will revive hope for that cereal in many places where it will have been seriously damaged.

Severe storms will develop from this disturbance in many sections from the Pacific to the Atlantic, and it will be a good time to be on the alert for situations that will be safe when furiosa elements are threatening. Not only transcontinental storms but tropical are expected with a large probability of the inauguration of the seasonal tropical hurricanes.

A long dry period may be expected in large sections of the corn belt from August 11 to 25. These 14 days will be very trying on the corn crop and soon after the drought has gone by frosts will begin to threaten.

The eastern and western cotton states are also threatened by this August drought, while the lower Mississippi valley will get too much rain. Cuba and southern Florida will be entirely too dry.

Probabilities are that eastern Canada will get too much rain in August, and the spring wheat section of the northwest a sufficient amount of moisture.

My monthly weather charts for August are now being published, and will greatly help in keeping up with future weather events.

A fire last week at Bonmarck, N. D., did damage to the amount of \$105,000 in the village of Bonmarck. The village of the village was wiped out. There was no fire in the village and buildings on the east side of the track caught fire several times, but the flames were extinguished before they gained much headway. There are some who suspect that the fire was started intentionally.
